

# FASHION FIRST

GOTS APPROVED FACTORY

## Presentation

A professionally managed organization by young entrepreneurs who are qualified engineers in **Textile** and have hands on experience around **15 years** in the field.

**Fashion First**, today is a multi-product **manufacturer and exporter** of **knitted garments** and stands on its **unique quality (UQ) policy**, well-founded delivery commitments along with **competitive pricing...**

Fashion First aims to be a paradigm of perfection and has been in the forefront of the industry complying with the **customer's requirements** following **government laws and regulations**. Today, it is seen as a **hi-tech customer friendly, Eco responsive / ethical corporate citizen** that is shaping a better tomorrow for everyone.

We have an optimally **infrastructure** replete with **processing and packing units** to produce **high quality garments**, state-of-art multi location units for various niche knit products.

*Head Office in Tirupur (India)*

*Cutting is done by experienced persons*

# Yarn

Even though cotton, a natural fibre is dependent on nature's whims, by having larger inventory, our suppliers succeed in giving consistent quality throughout. They are Monitoring at every stage of production, coupled with tough and critical testing ensures only the best is delivered. With us, quality is never an accident; it is the result of intelligent efforts.

# Knitting

We are getting cloths knitted by State-of-art machineries such as Mayer & Cie and, we deal flexible knitting mills that can manage mass quantity production and minimums too.

## Dyeing/Printing

We are getting our fabrics dyed/printed from OEKO TEX certified dyeing factories with soft flow dyeing machineries such as Theis they can also perform organic dyeing methods as well.

## Cutting

Skilled workforce and modern machineries, fabrics are cut to precision. Accurate machine ratio gives impeccable shape to the garment. For precise cutting band knife cutting machine is being used. "With an increasing need for cost control and efficiency.

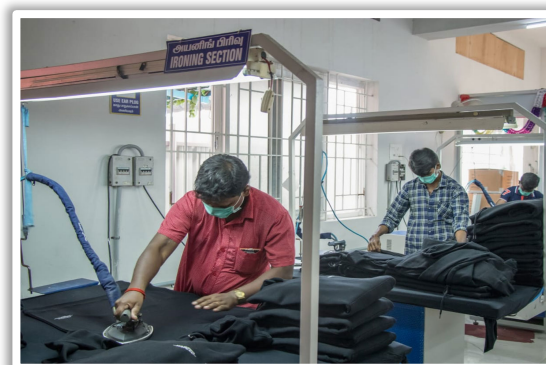

## Garment Production

Equipped with state-of art machineries with microprocessor-controlled JUKI which is advanced with dry head technology (Oil Free Garment Production Technology). For the convenience of our dedicated workforce, this division is provided with adequate lighting, ample space, and other amenities

## Checking, Ironing & Packing

A variety of tests are being done to check the overall quality of apparels. They are thoroughly checked to meet the international standards. Checking is done by experienced/ skilled hands who have good knowledge about garments.

Ironing is done with good spacious airy place with experts in the field. Packing is done with standard materials and special packing are done as per the requirement from clients

## Quality Control

We believe in “Prevention is better than cure”; Quality execution is being done from yarn to finished garments with our proactive quality engineers. All the required yarn/ Fabric/ Garment testing are being done with various Testing agencies like ITS/TUV /MTS/SGS.

## Our Strengths

Dedicated workforce, information systems, experience and ethical business practices are the strongest pillars of Fashion First, elements that have helped the company establish a strong foothold. Having strategic alliance with leading yarn manufacturer and processing houses. Thereby getting consistency in quality and commitment in delivery.
